WEB DEVELOPMENT PROJECT PORTFOLIO

A visual presentation of three beginner-level HTML and CSS website projects

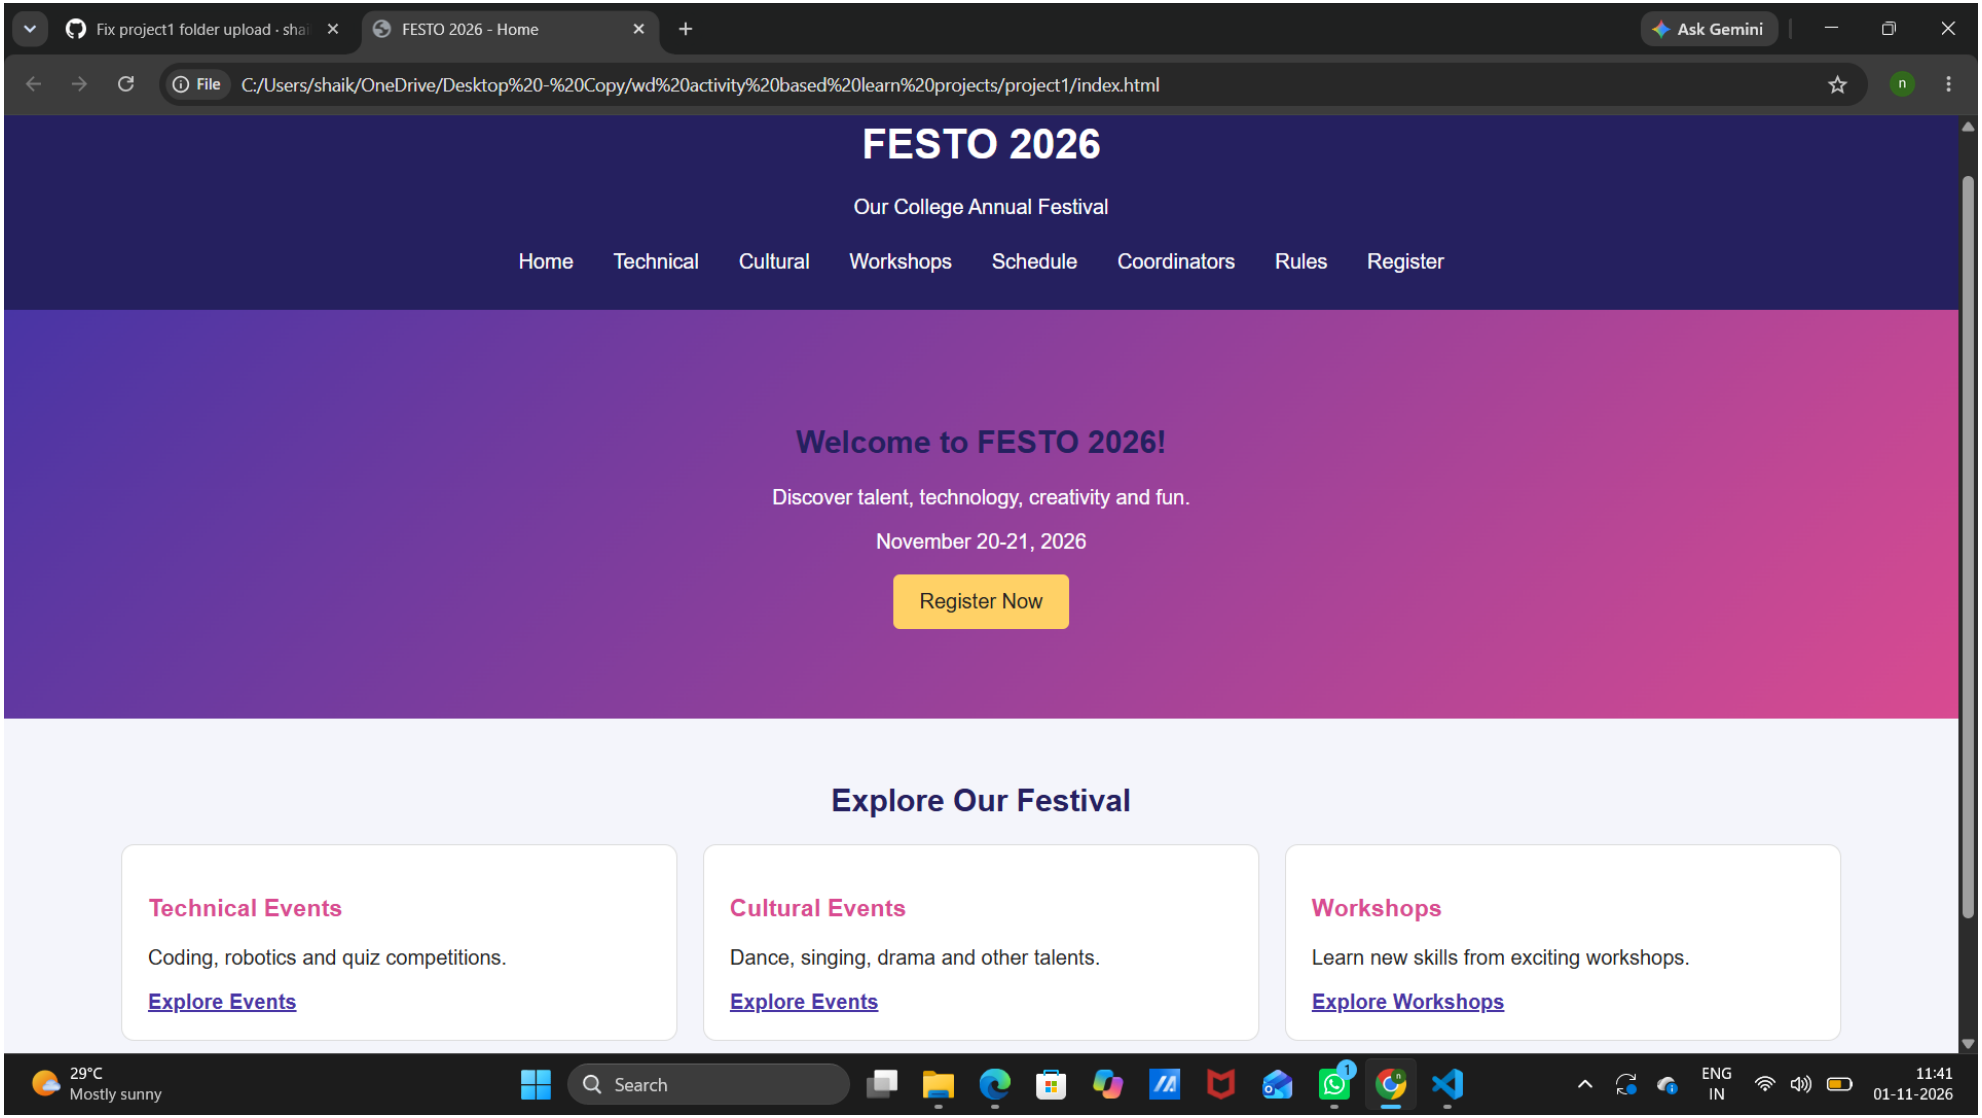

Projects Included

1. FESTO 2026 – College Fest Management Website
2. My Account – User Registration and Login Website
3. Serenity Yoga – Yoga and Meditation Website

Prepared for College Project Submission

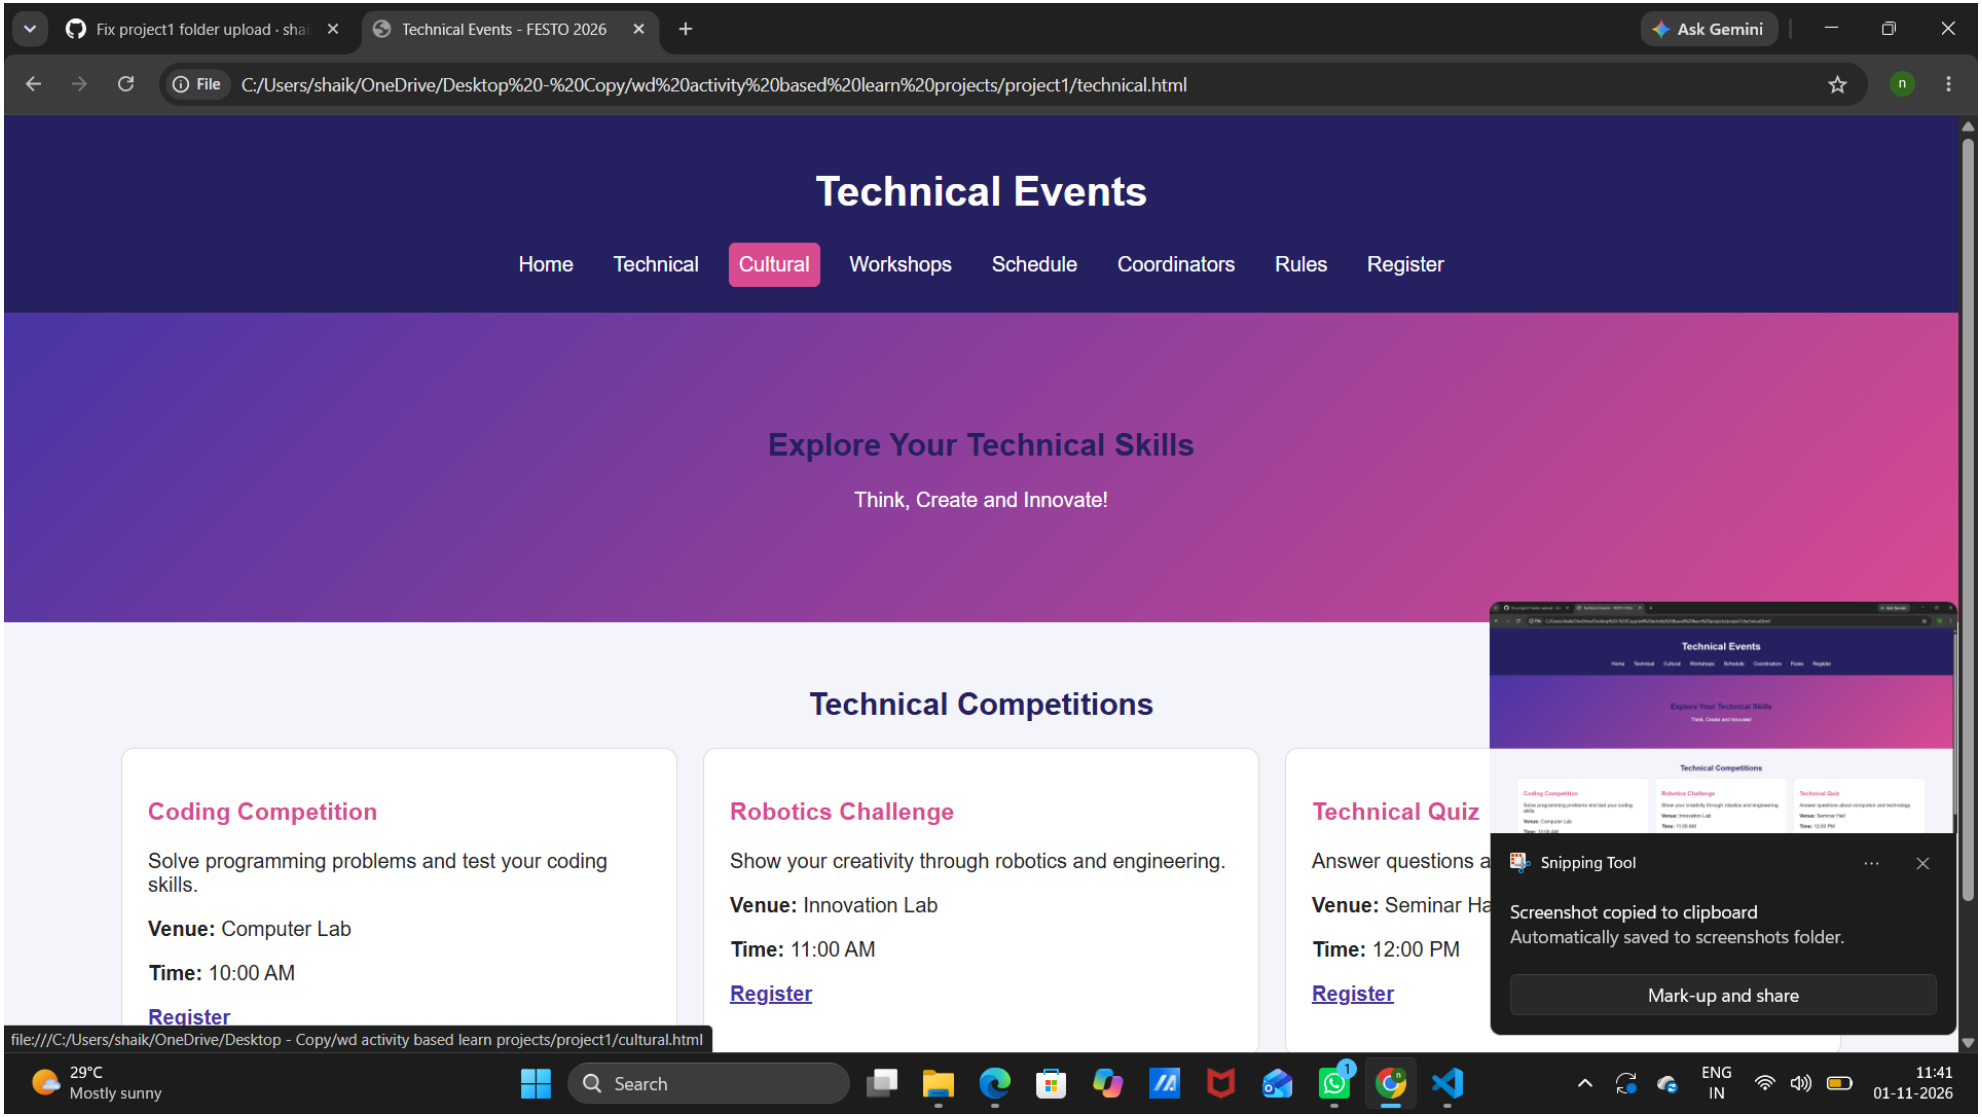

Project 1: FESTO 2026

Home page introducing the annual college festival and its main sections.

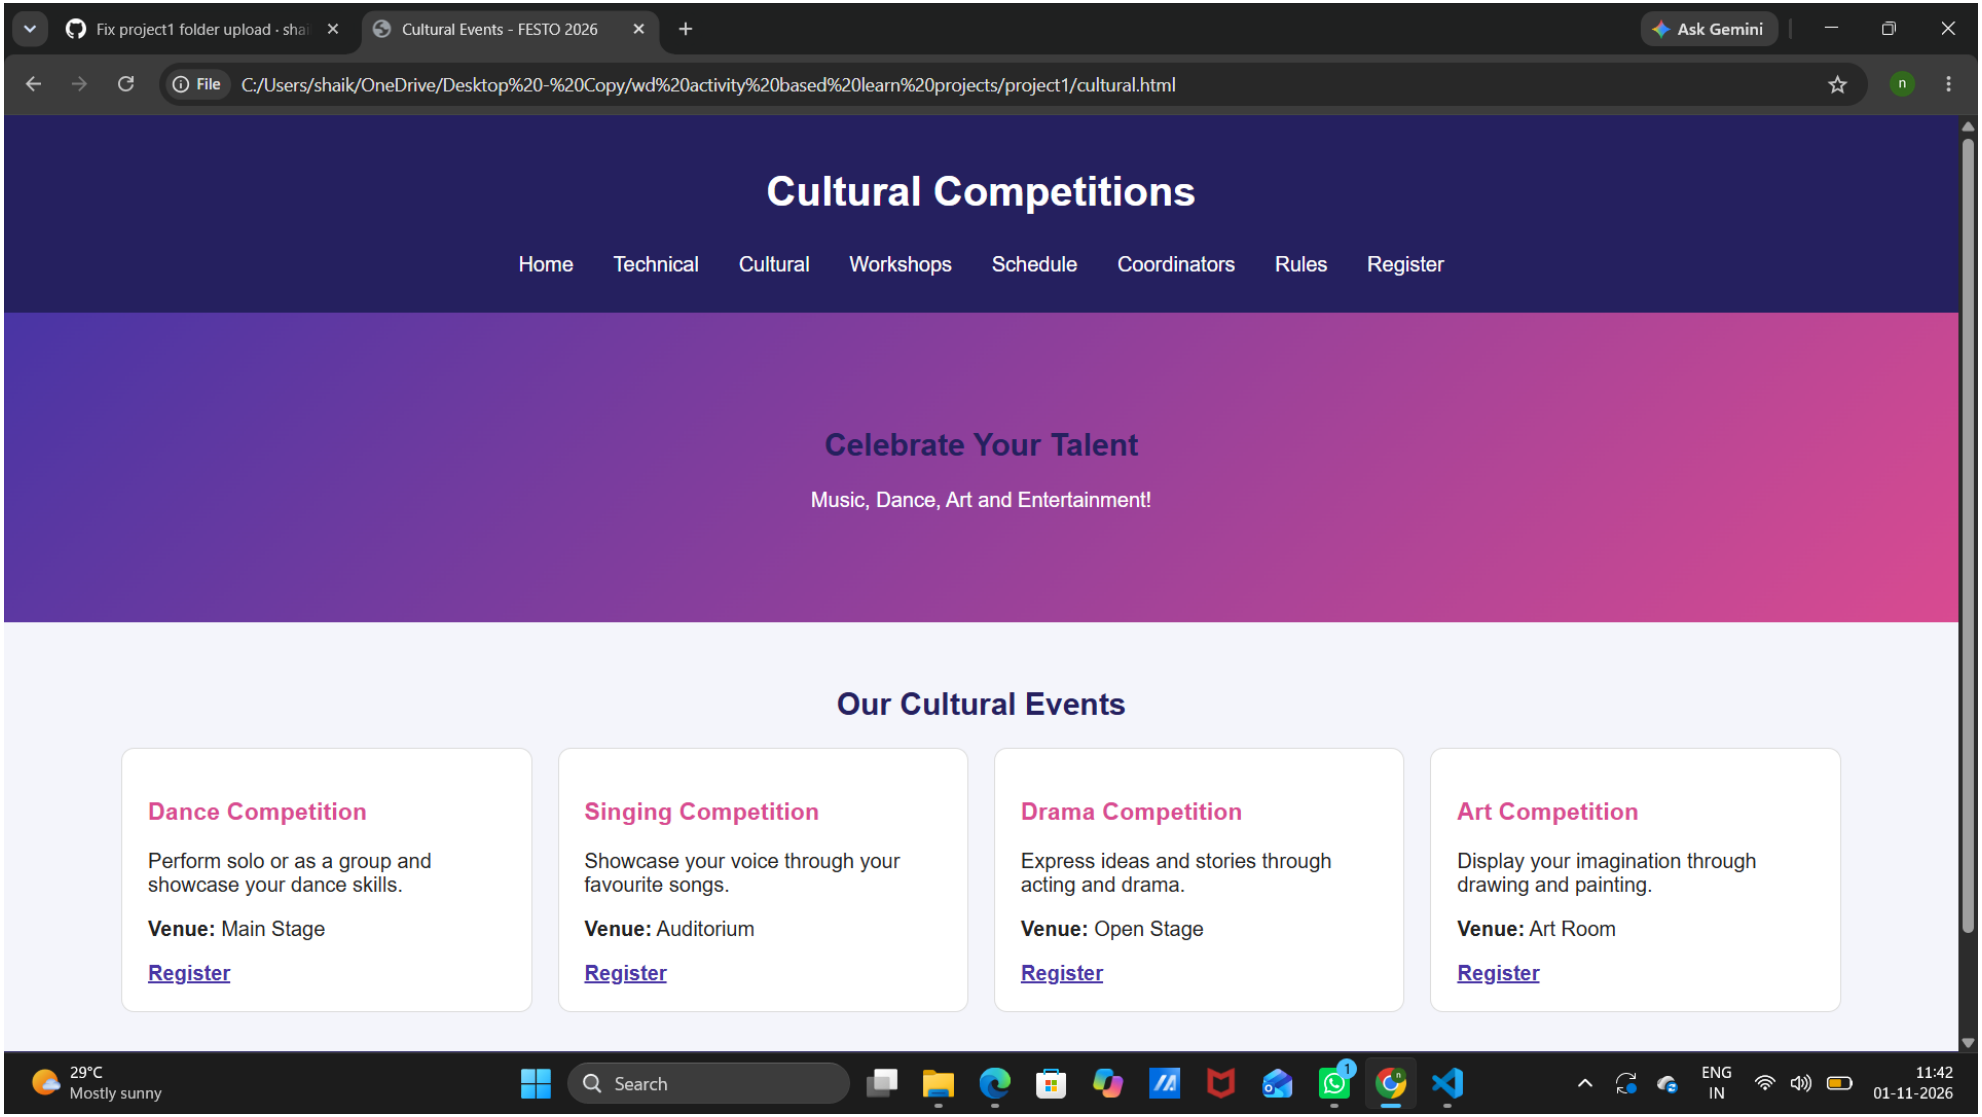

Project 1: FESTO 2026 – Technical Events

Technical competitions page featuring coding, robotics and quiz events.

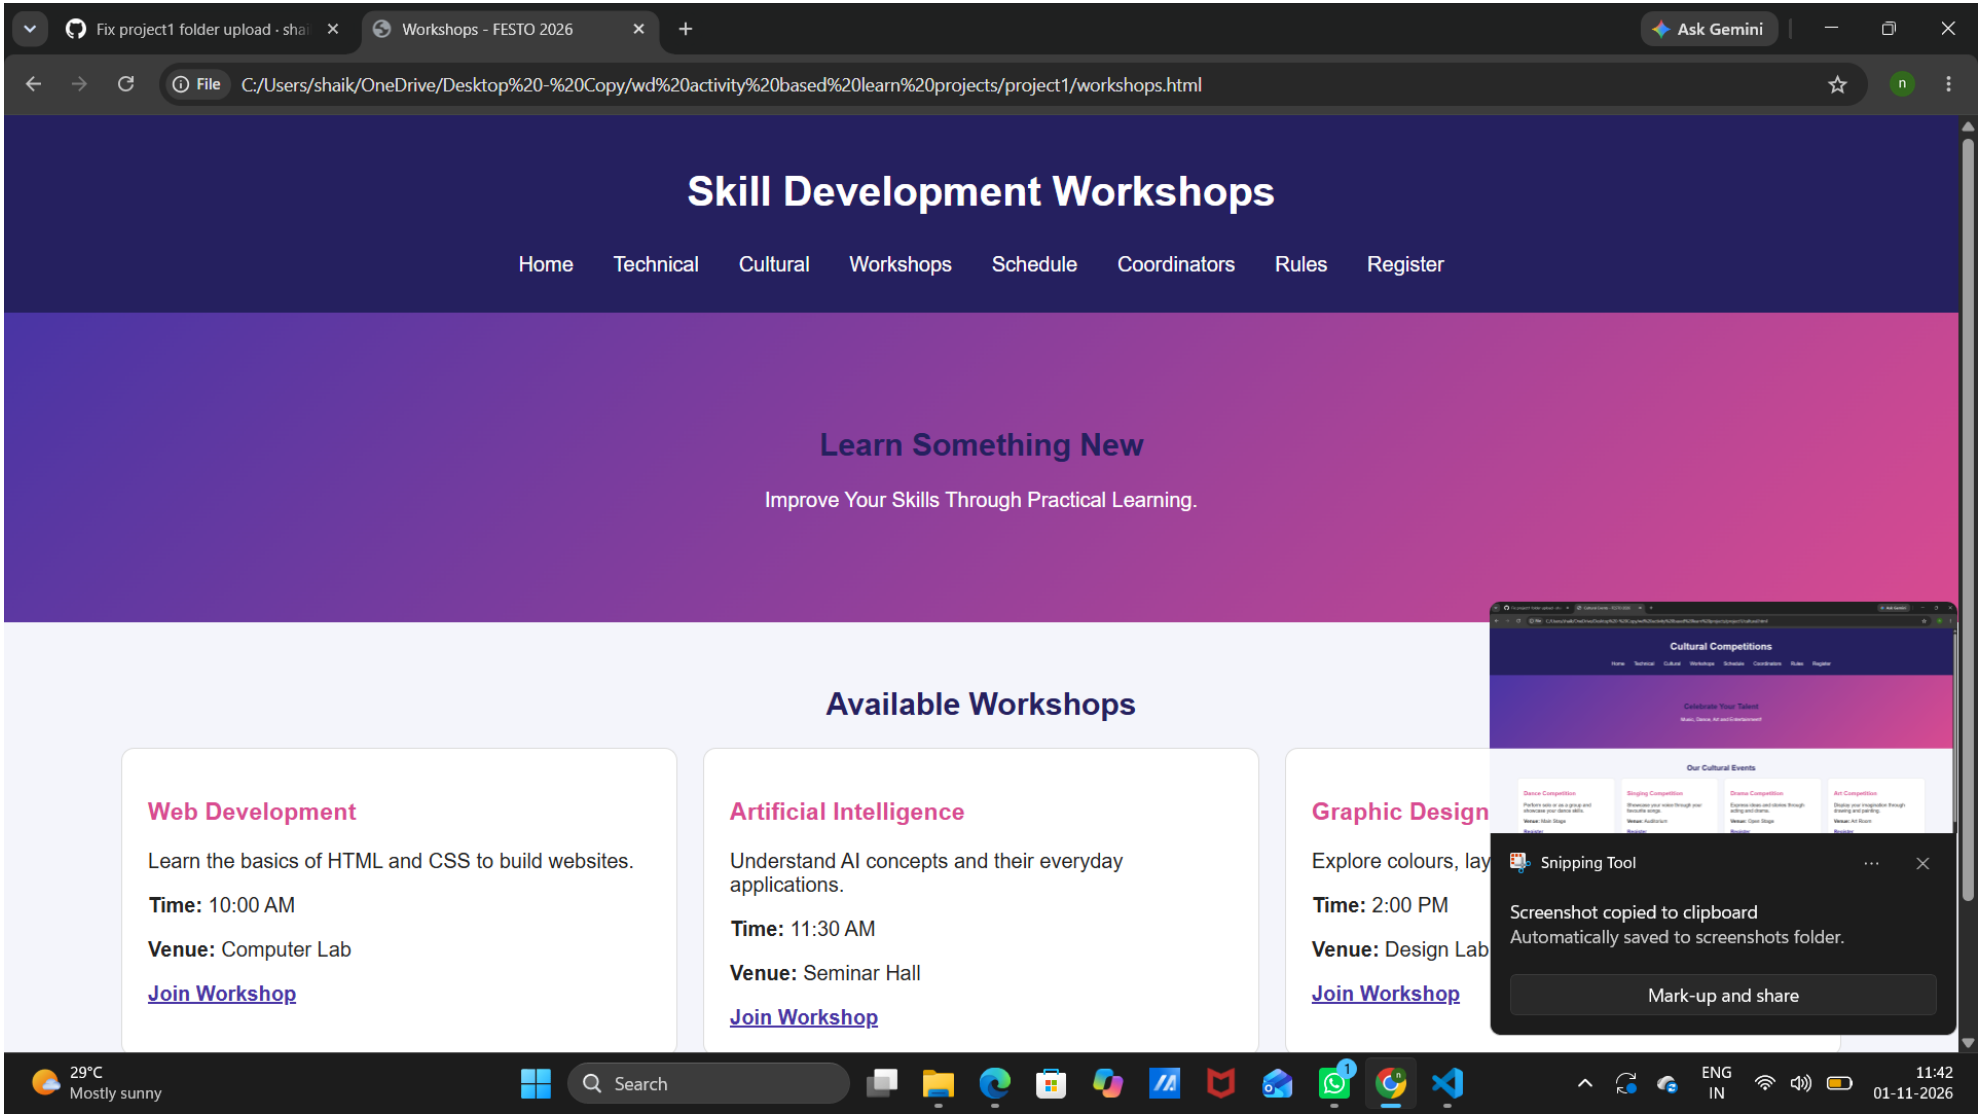

Project 1: FESTO 2026 – Cultural Events

Cultural competitions page showcasing dance, singing, drama and art.

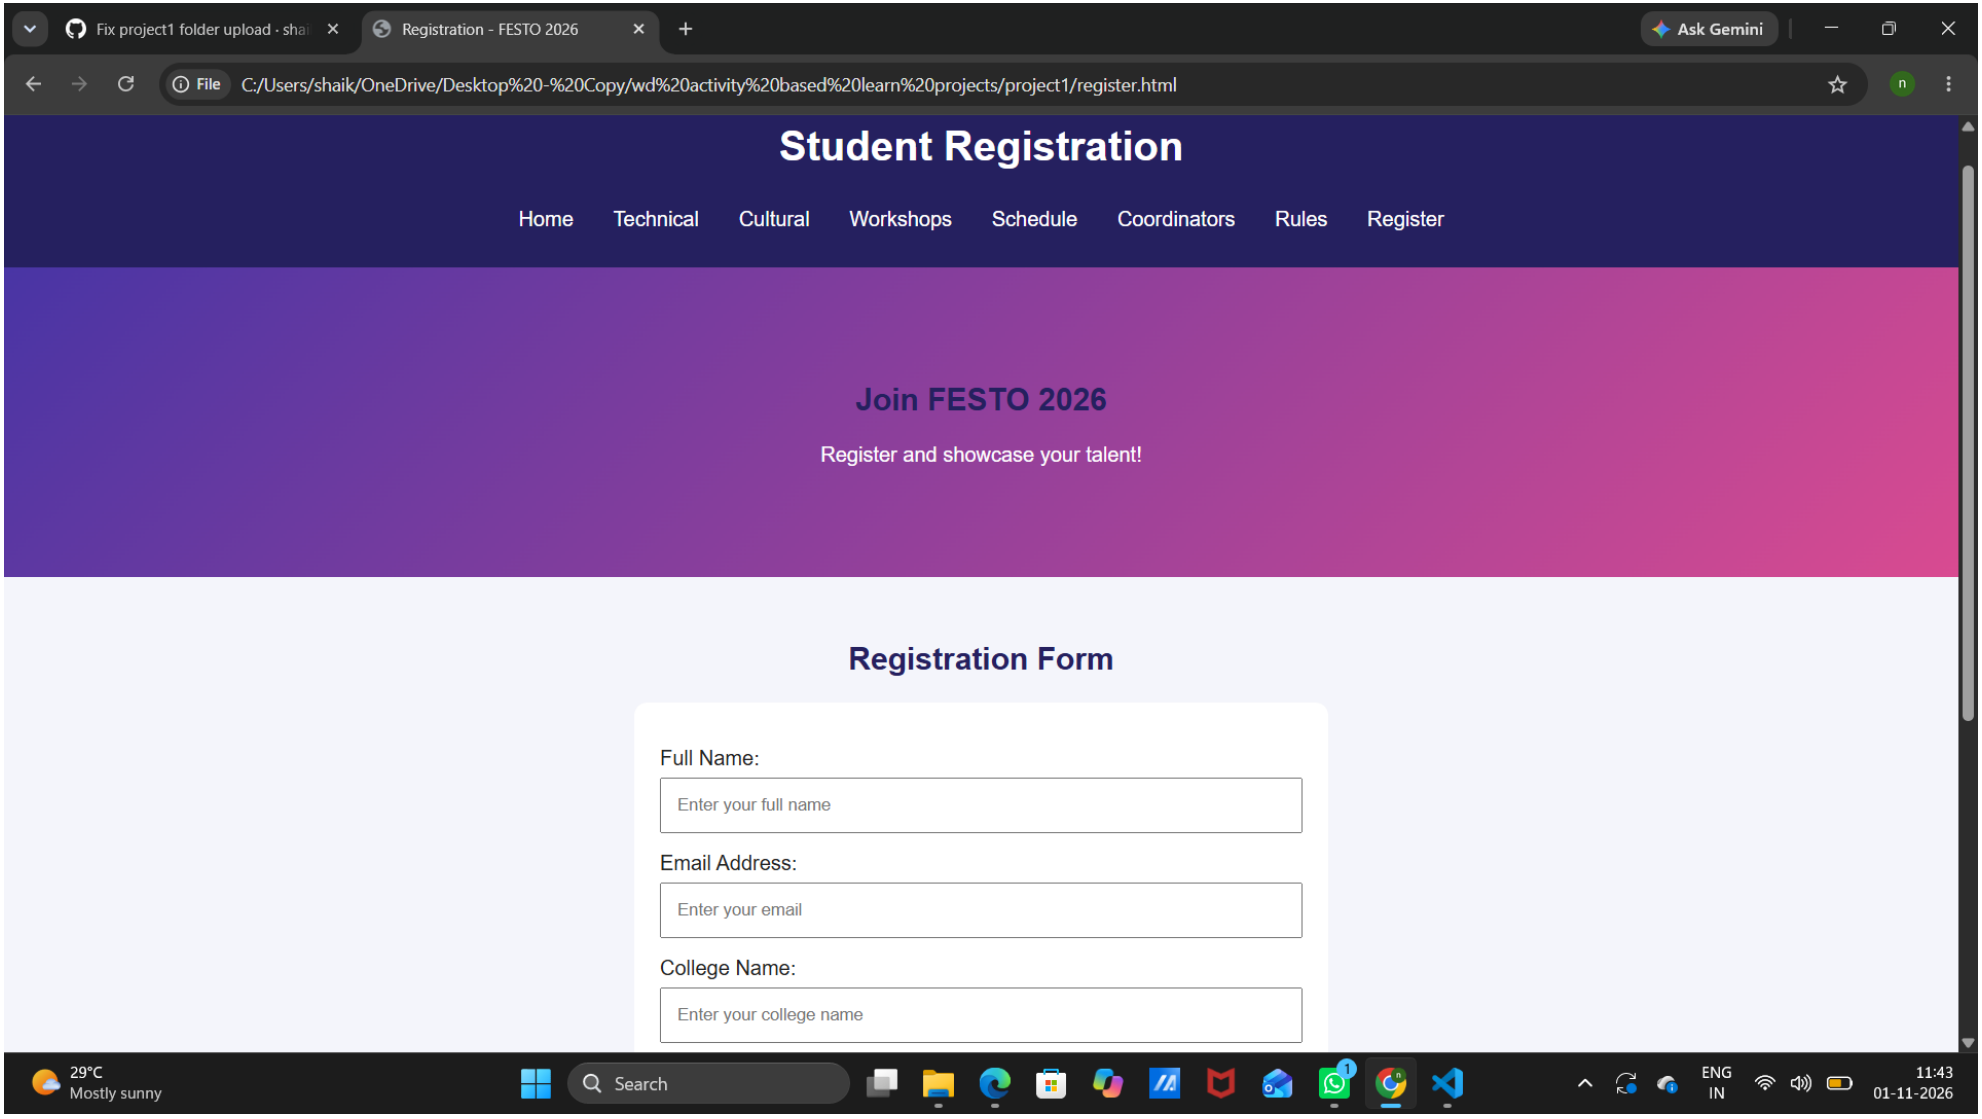

Project 1: FESTO 2026 – Workshops

Workshop page presenting skill-development sessions and schedules.

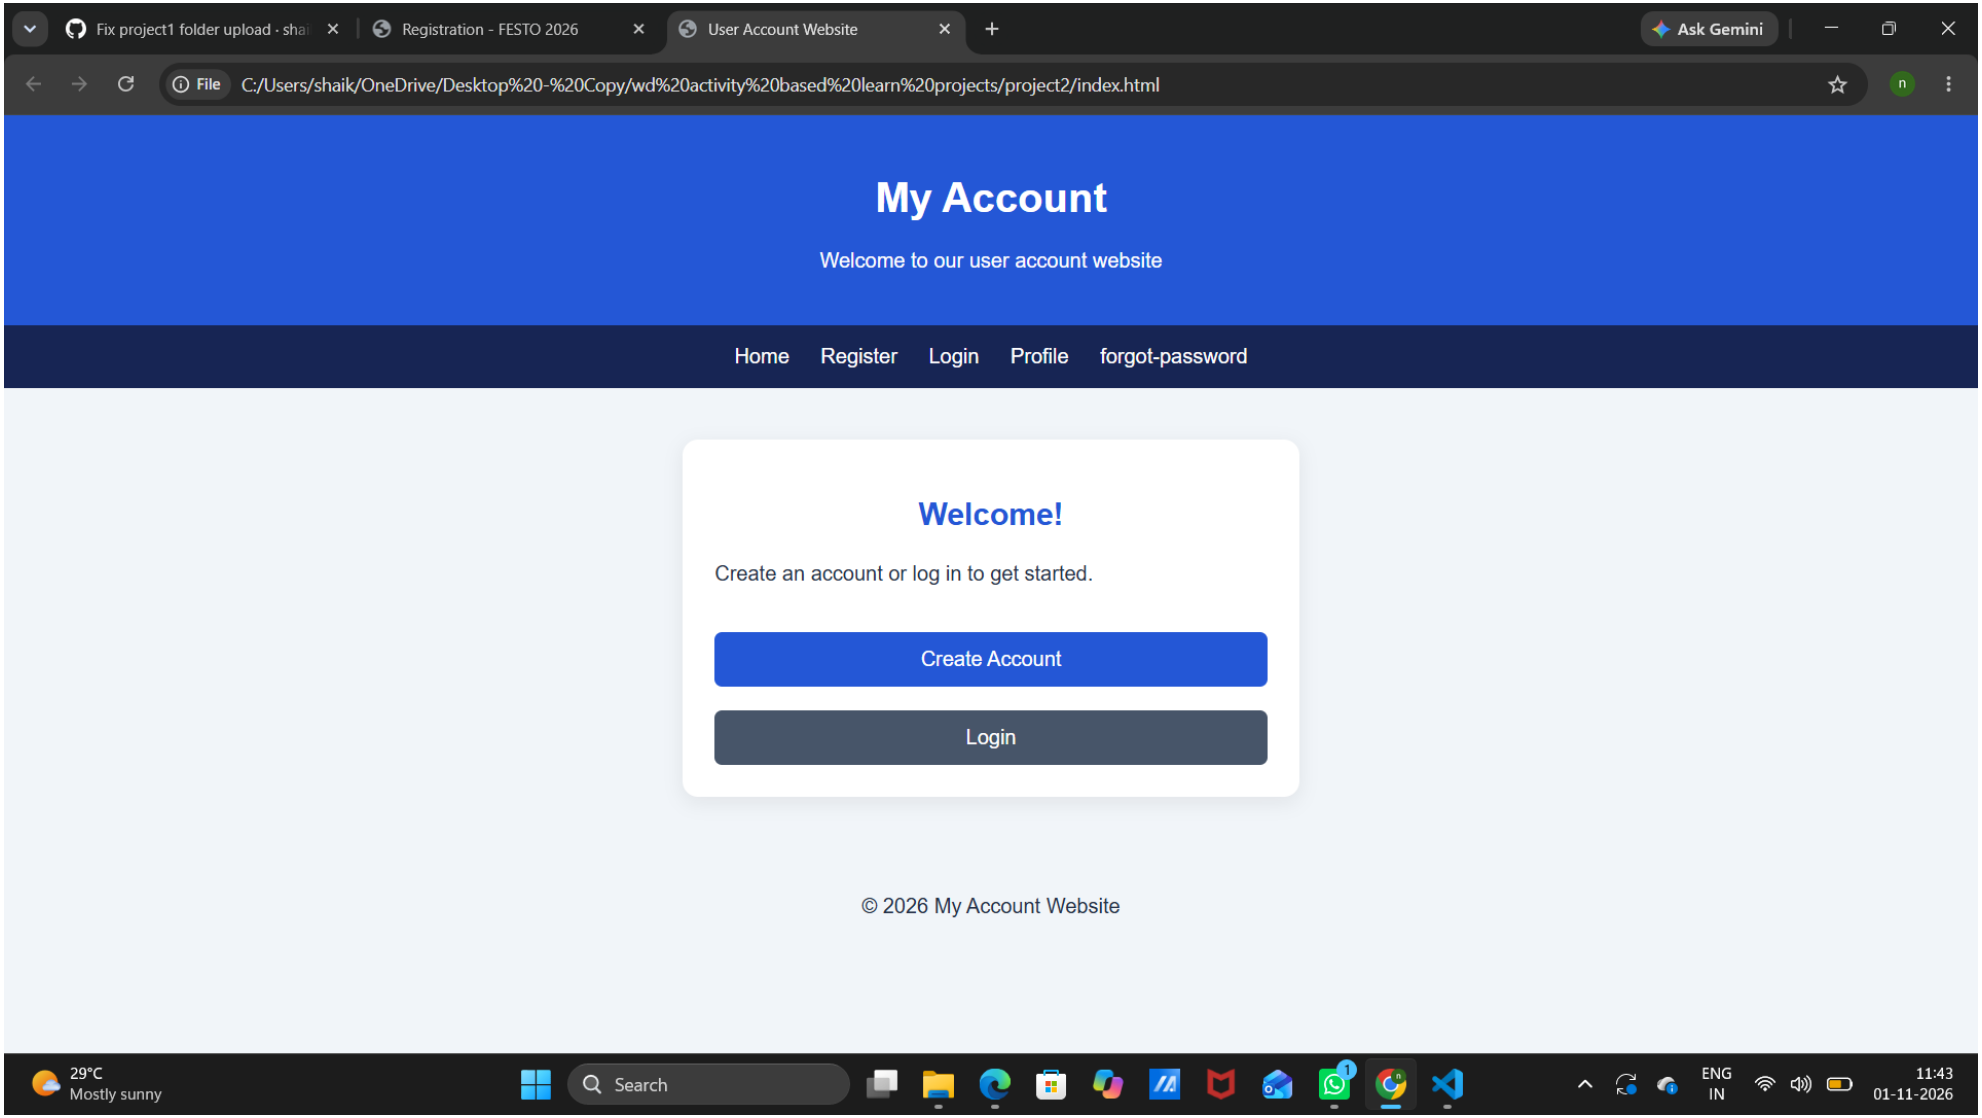

Project 1: FESTO 2026 – Student Registration

Registration page for students interested in participating in the festival.

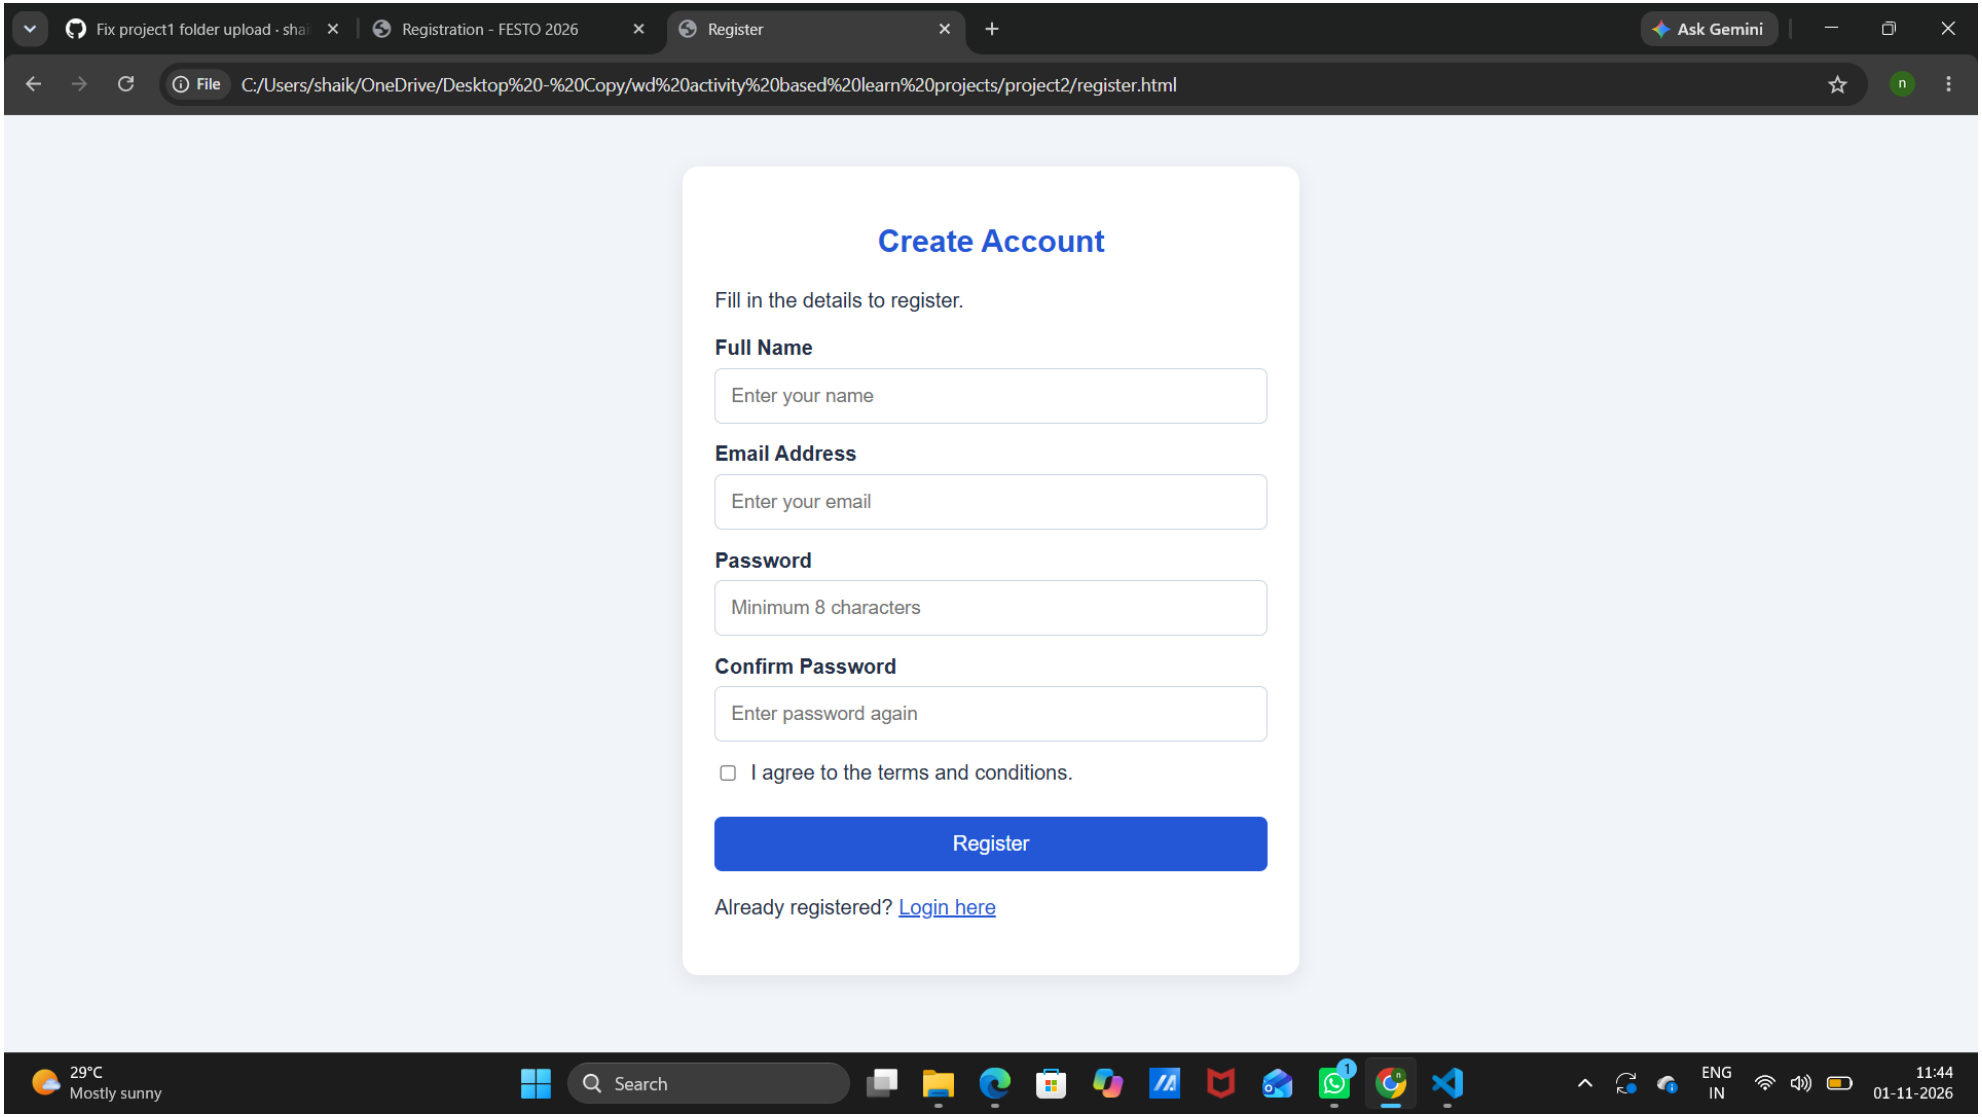

Project 2: My Account

Welcome page with options to create an account or log in.

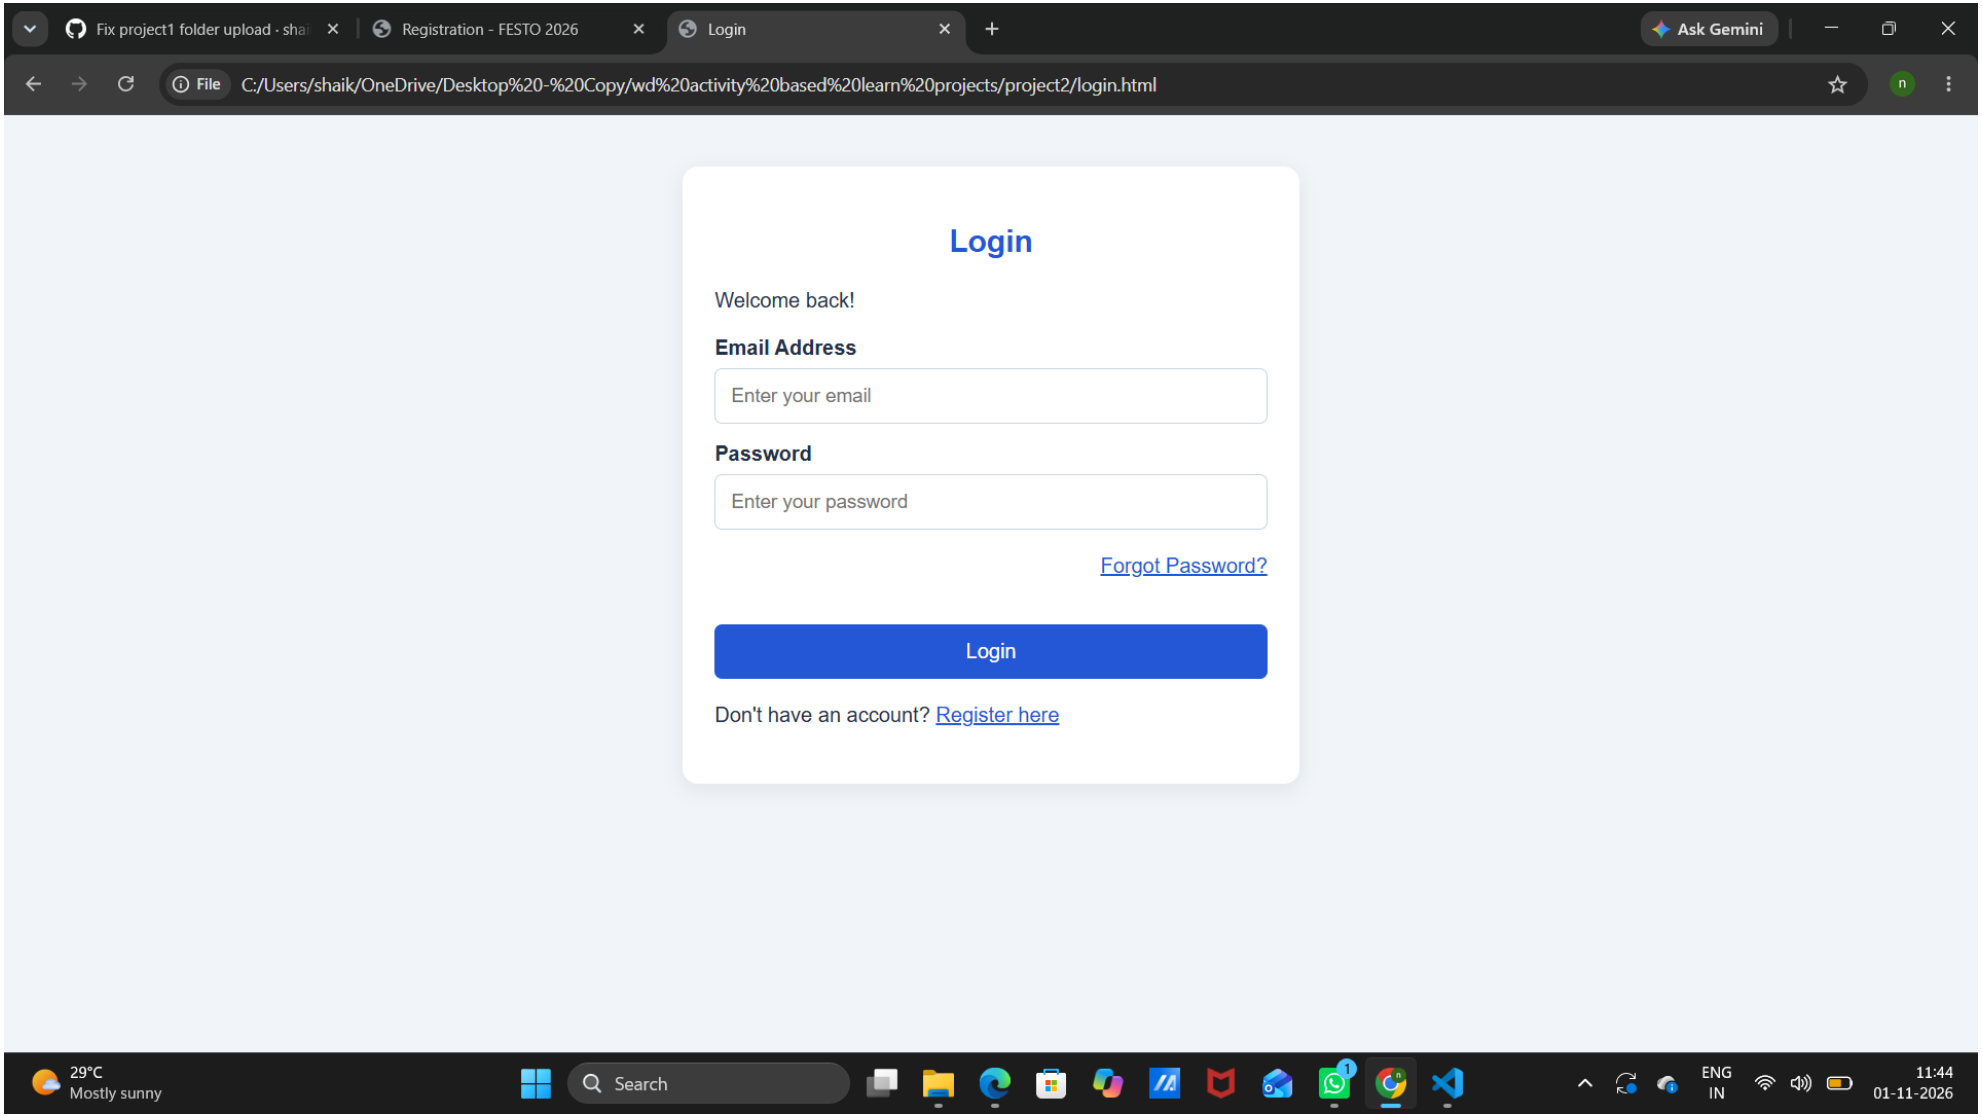

Project 2: My Account – Registration

Account creation form with name, email and password fields.

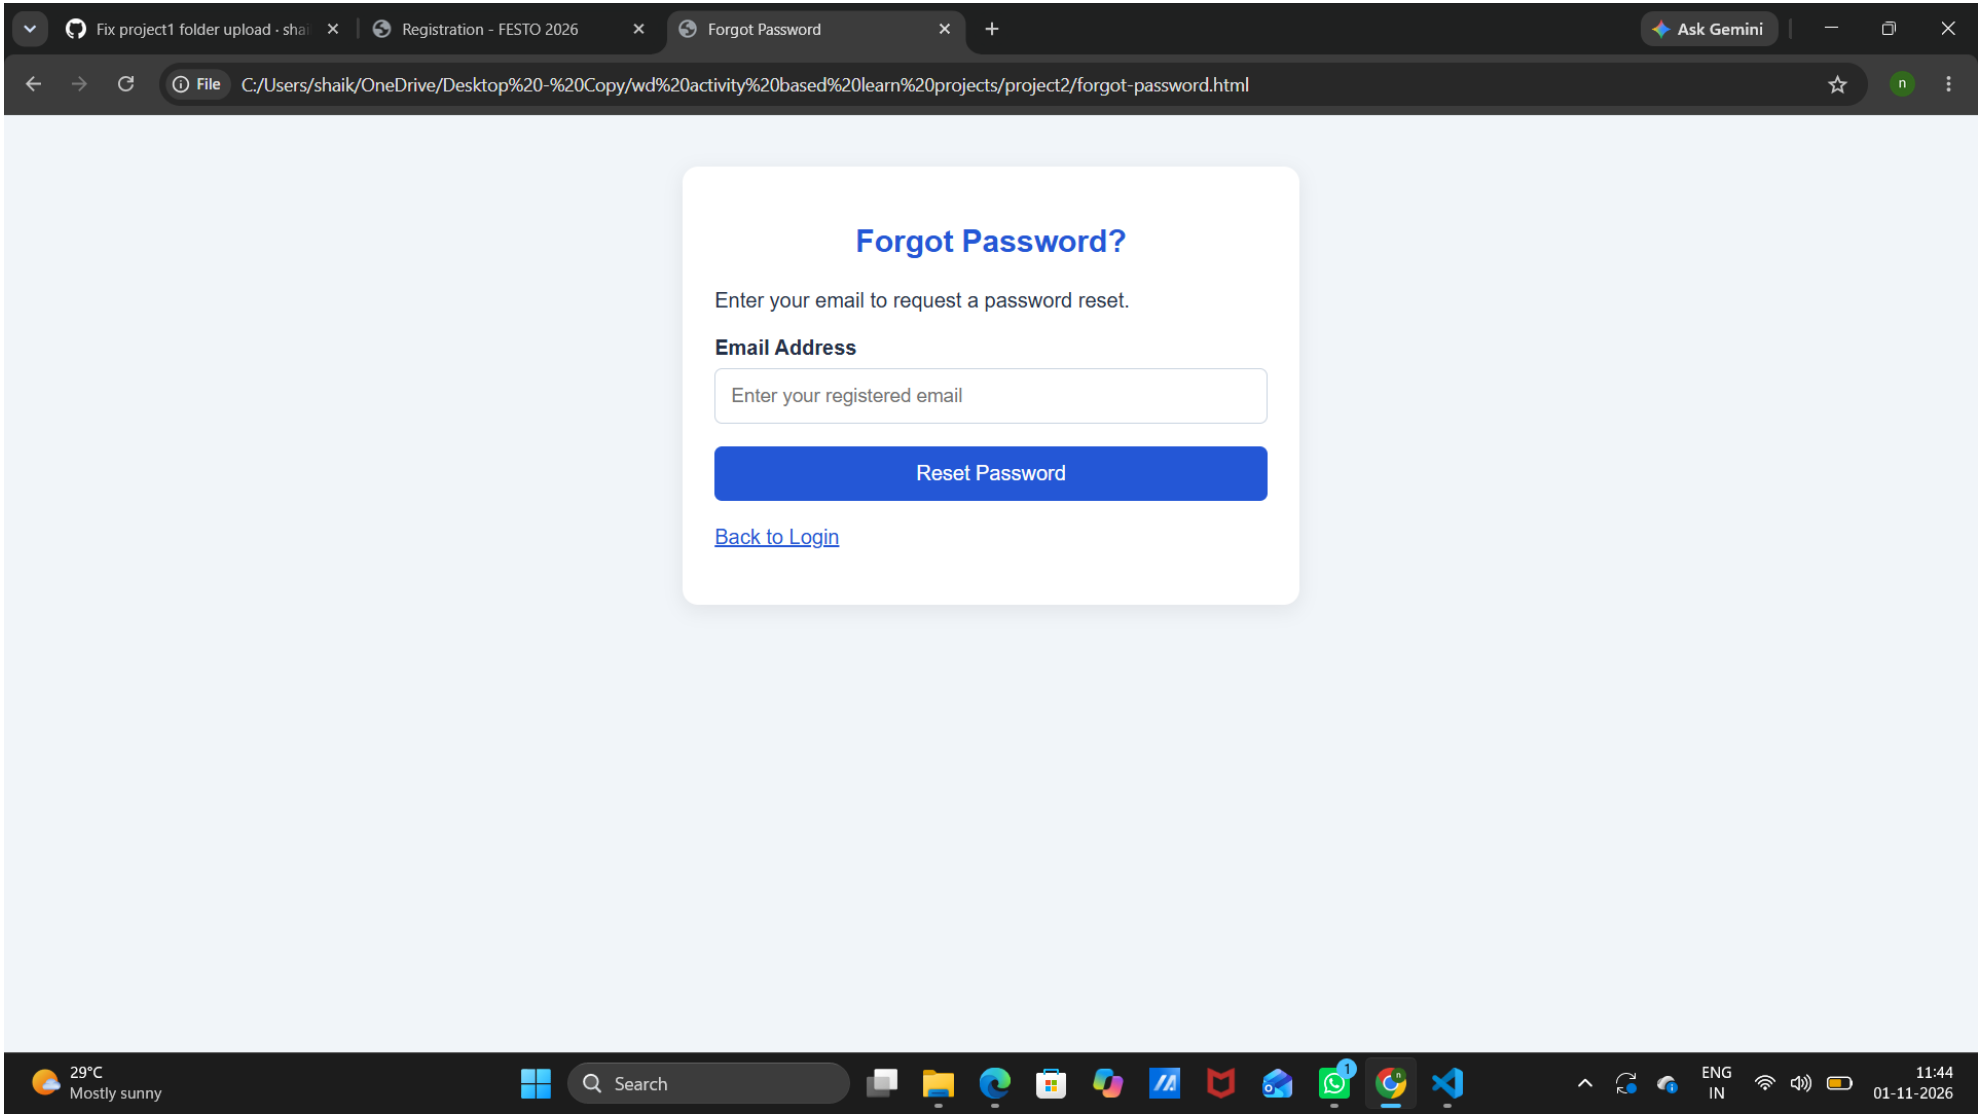

Project 2: My Account – Login

Login form for registered users.

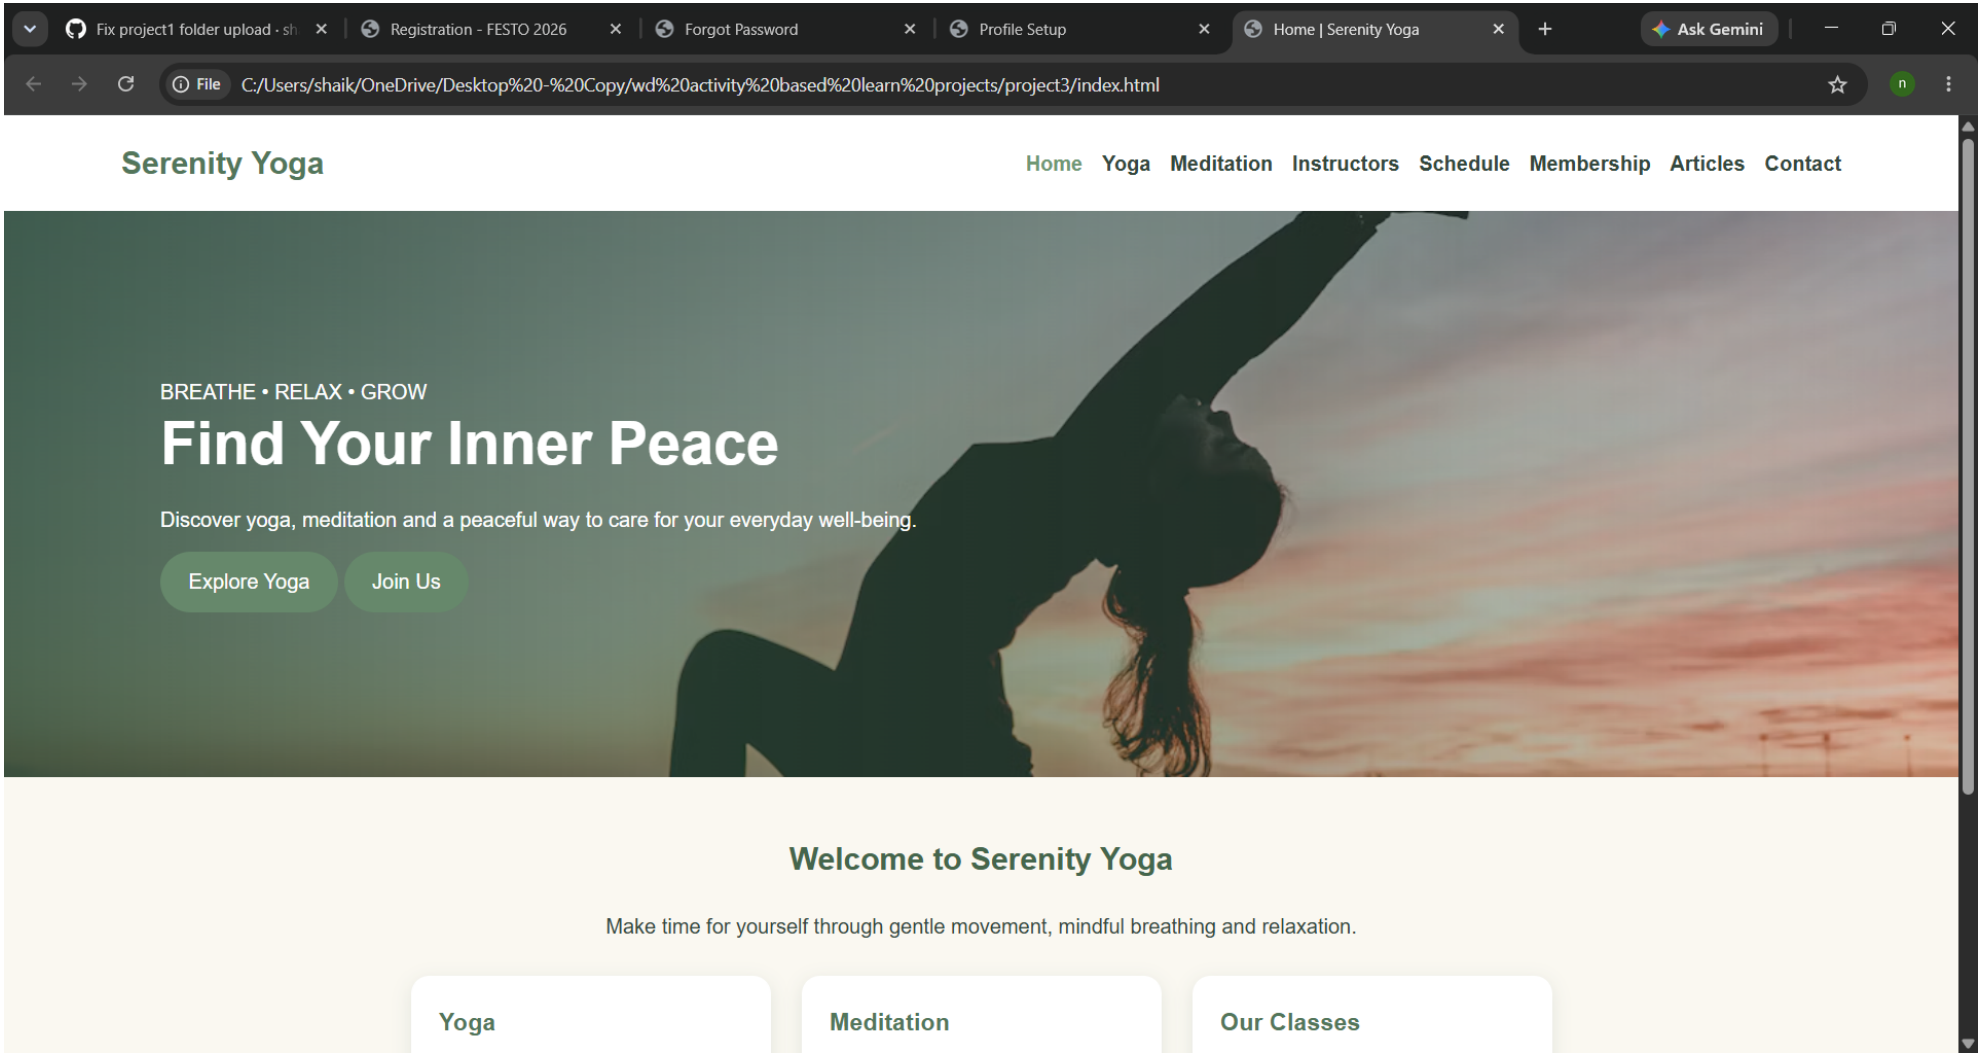

Project 2: My Account – Forgot Password

Password recovery page requesting the registered email address.

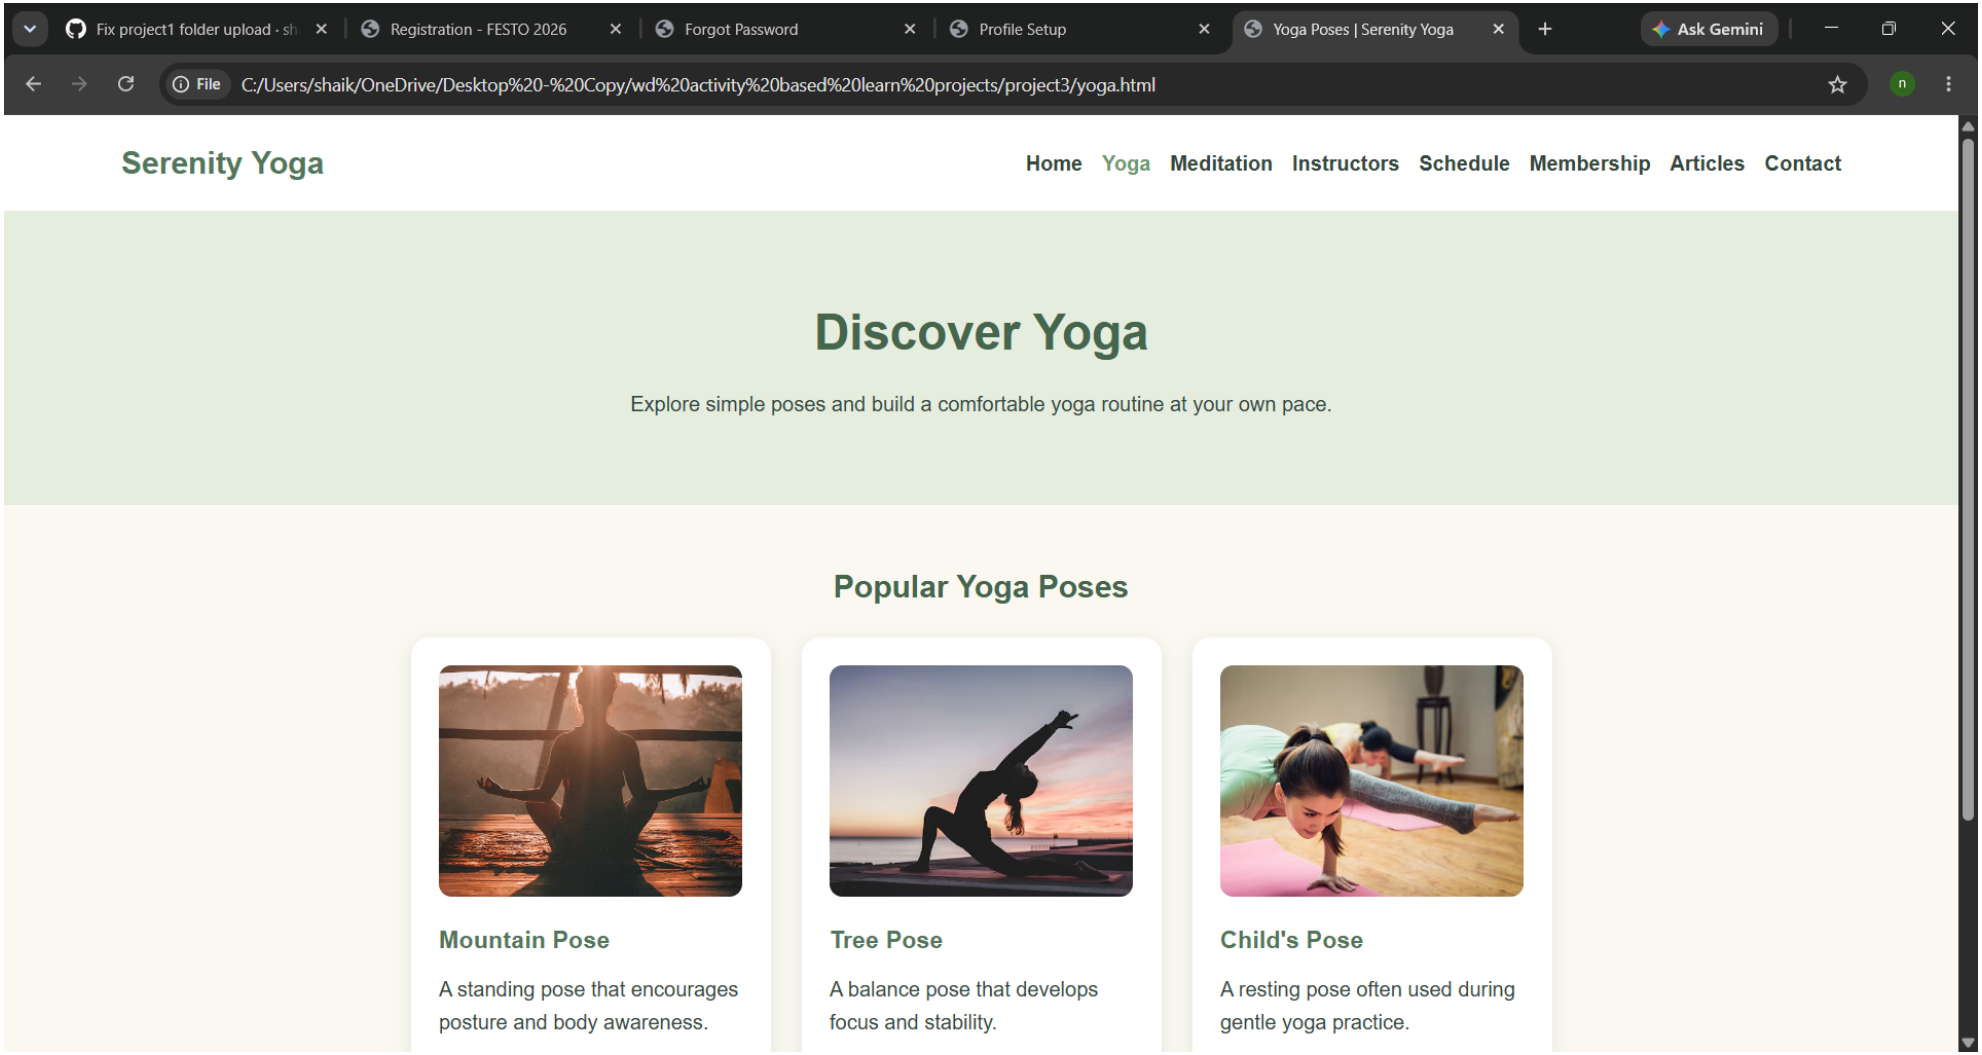

Project 3: Serenity Yoga

Home page introducing yoga, meditation and wellness classes.

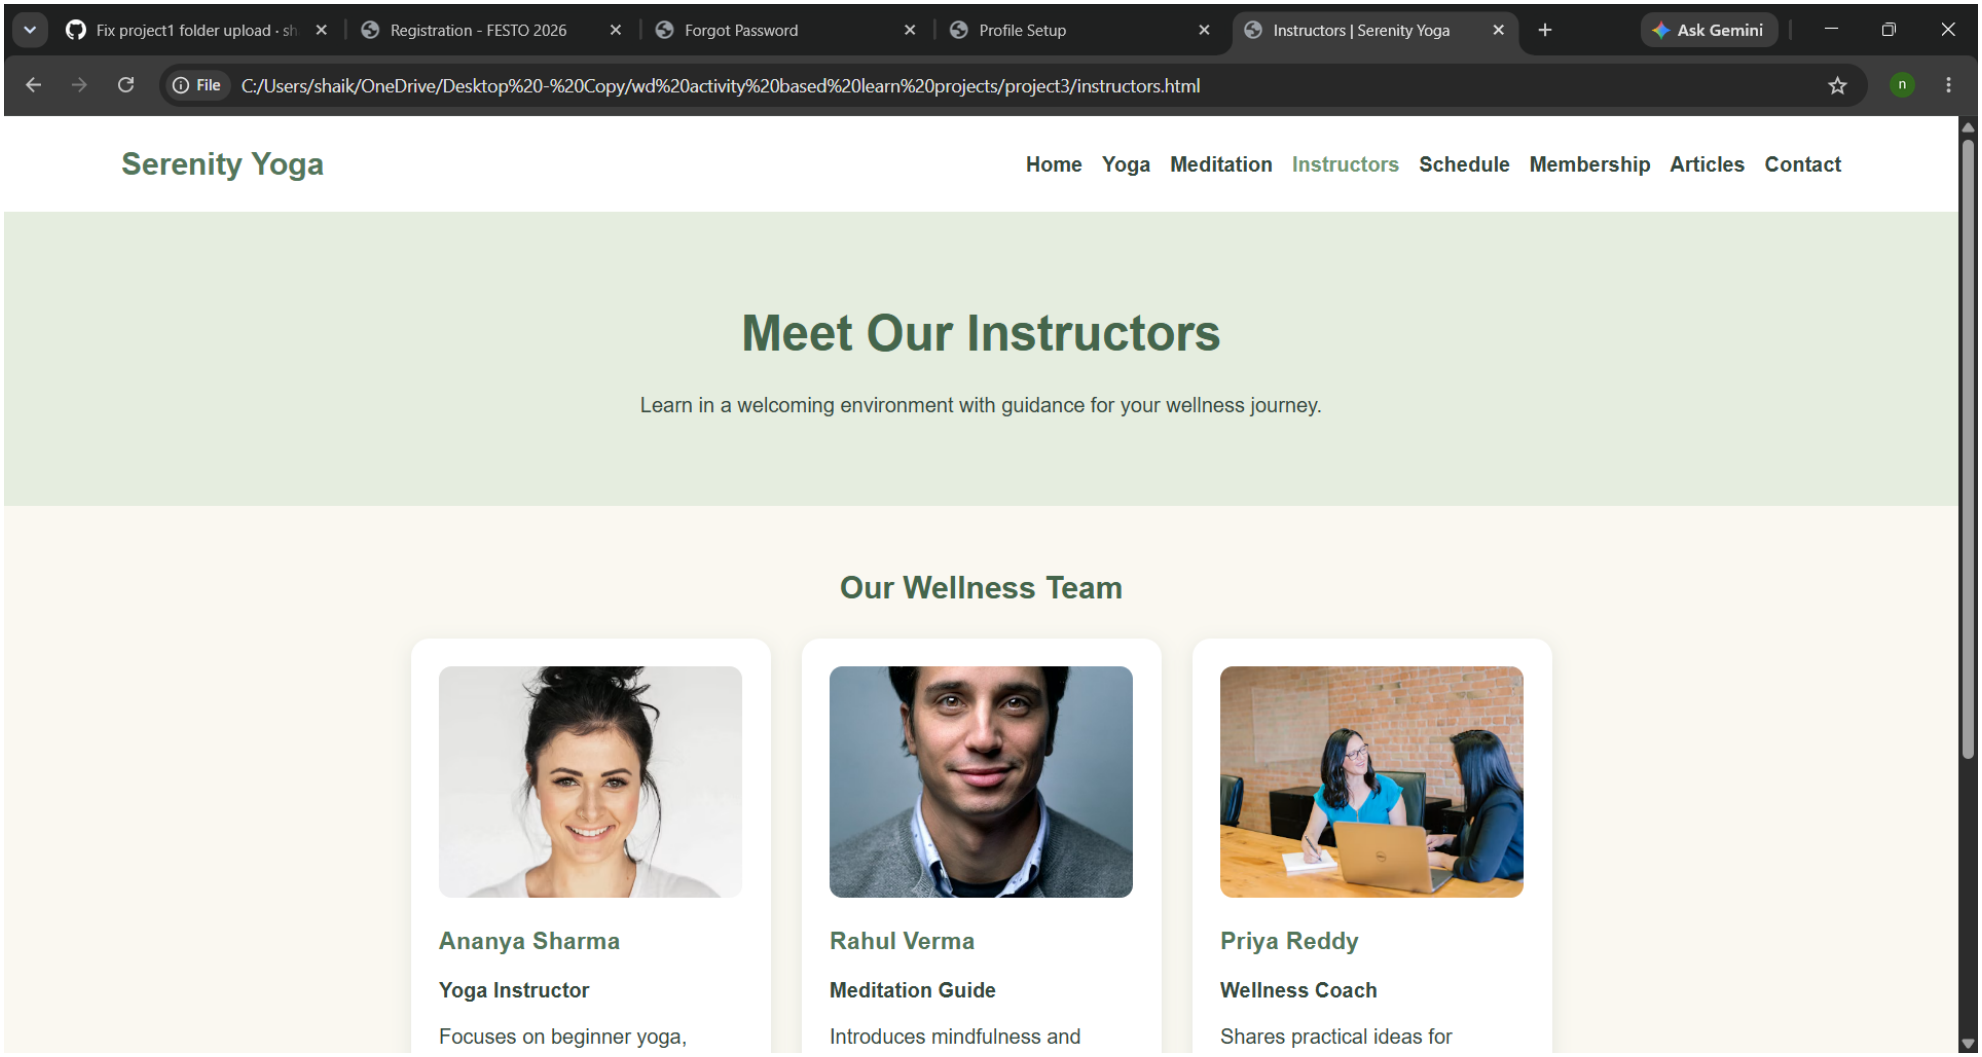

Project 3: Serenity Yoga – Yoga Poses

Yoga page displaying examples of popular yoga poses.

Project 3: Serenity Yoga – Instructors

Instructor page introducing the wellness team.

Conclusion

This portfolio presents three website projects created using HTML and CSS. The FESTO 2026 project organises festival information and student registration. The My Account project demonstrates common account interface pages such as registration, login and password recovery. The Serenity Yoga project presents wellness information, yoga poses and instructor profiles. Together, these projects demonstrate the use of web page structure, navigation, forms, layout and styling.
